Education

CENTRAL LUZON STATE UNIVERSITY

BS in Information Technology, Major in Systems Development

GPA: 1.41, *Magna Cum Laude*

Capstone: Aerator Automated Aquaculture Monitoring System Using Computer Vision for CLSU-FAC

Relevant Coursework: Systems Development, Web Applications Development, Internet of Things

Science City of Muñoz, Nueva Ecija

July 2024

Experience

Web Developer Intern

Philippine Rice Research Institute

February 2024 – May 2024

Science City of Muñoz, Nueva Ecija

- Develop a web-based system capable of generating exportable graphs from real-time data, enhancing data visualization for users.
- Incorporate various APIs to ensure accurate data input and manage database interactions effectively that prevents the system against vulnerabilities.
- Utilize front-end and back-end tools such as Tailwind, Laravel, ApexCharts, AJAX, and SweetAlert to deliver scalable web functionalities.

Projects

PhilRice Training Analytics

February 2024 - May 2024

- Develop a web-based data analysis system to efficiently organize and manage training-related information for the Philippine Rice Research Institute. This aims to enhance the effectiveness of their agricultural education initiatives.

Aerator Automated Aquaculture Monitoring System

July 2023 - December 2023

Using Computer Vision for CLSU-FAC

- Develop an android-based aquaculture monitoring system using computer vision to improve the living conditions of the catfish. This aims to automate the aeration process and improve the water quality of the pond while also saving energy by reducing water waste and energy use.

Vaccination Management System

August 2022 - November 2022

- Develop a web-based system that makes it possible to confirm each student's vaccination history. The principal has access to and management features over vaccination data which guarantees a thorough and well-organized handling of health information in the school community.

Certifications

JavaScript Game Development Workshop

Zuitt

September 2024

DICT-WD003 Basic JavaScript for Web Development

Department of Information and Communications Technology

September 2024

DICT-WD002 Using HTML and CSS to Design a Website

Department of Information and Communications Technology

July 2024

AWS Academy Cloud Foundations Training

AWS Academy

September 2023

SAP Analytics Cloud Training Session

SAP

April 2023

Graphics Design Using Canva Basic Training

Department of Information and Communications Technology

March 2023

Technopreneurship 101

PSITE Central Luzon

October 2021

Skills

Programming: HTML5, CSS, JavaScript, PHP, Python, SQL, C/C++/C#, Java

Frameworks: Laravel, Tailwind, Bootstrap, React, AJAX

Development Tools: Visual Studio Code, Git, Postman, Wix
